Rubber reborn.

Roof Repair

with Ultra Durable Rubber Primer &  
Energy Saving Cool Top Coat

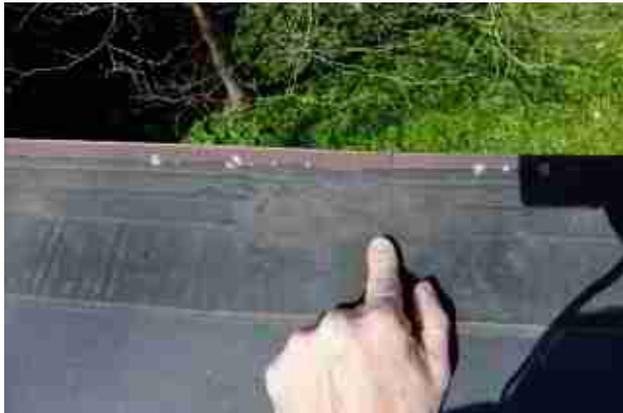

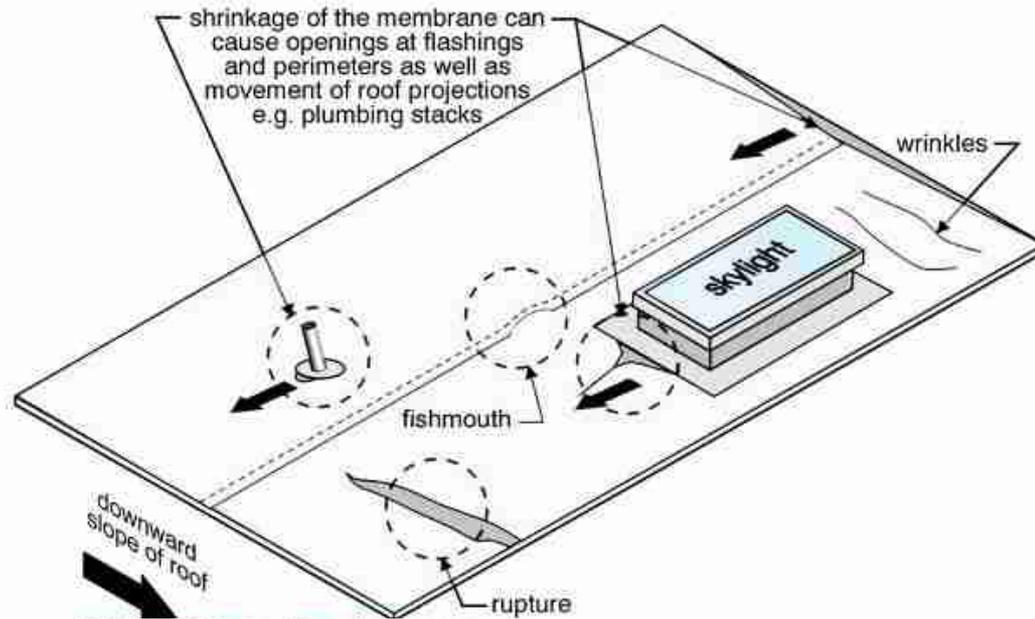

# Questions????

- Have you had any leaks, or concerned about them?
- Cooling expenses getting more expensive in the summer months?
- When was the last time you inspected and repaired your roof?
- Want to have a safer, cleaner, healthier and more energy-saving material covering your home?

# Project Roof

# Common Roof Problems

# Typical Leak & Damage

# Power Wash & Inspection

# Patching

# Primer

The Rubber coating is designed to be a water-resistant, protectant surface, that provides extra sound absorption for your roof.

Don't buy a new roof, don't buy new panels. Coat with our durable and long lasting primer.

# Energy Saving Cool Top Coat

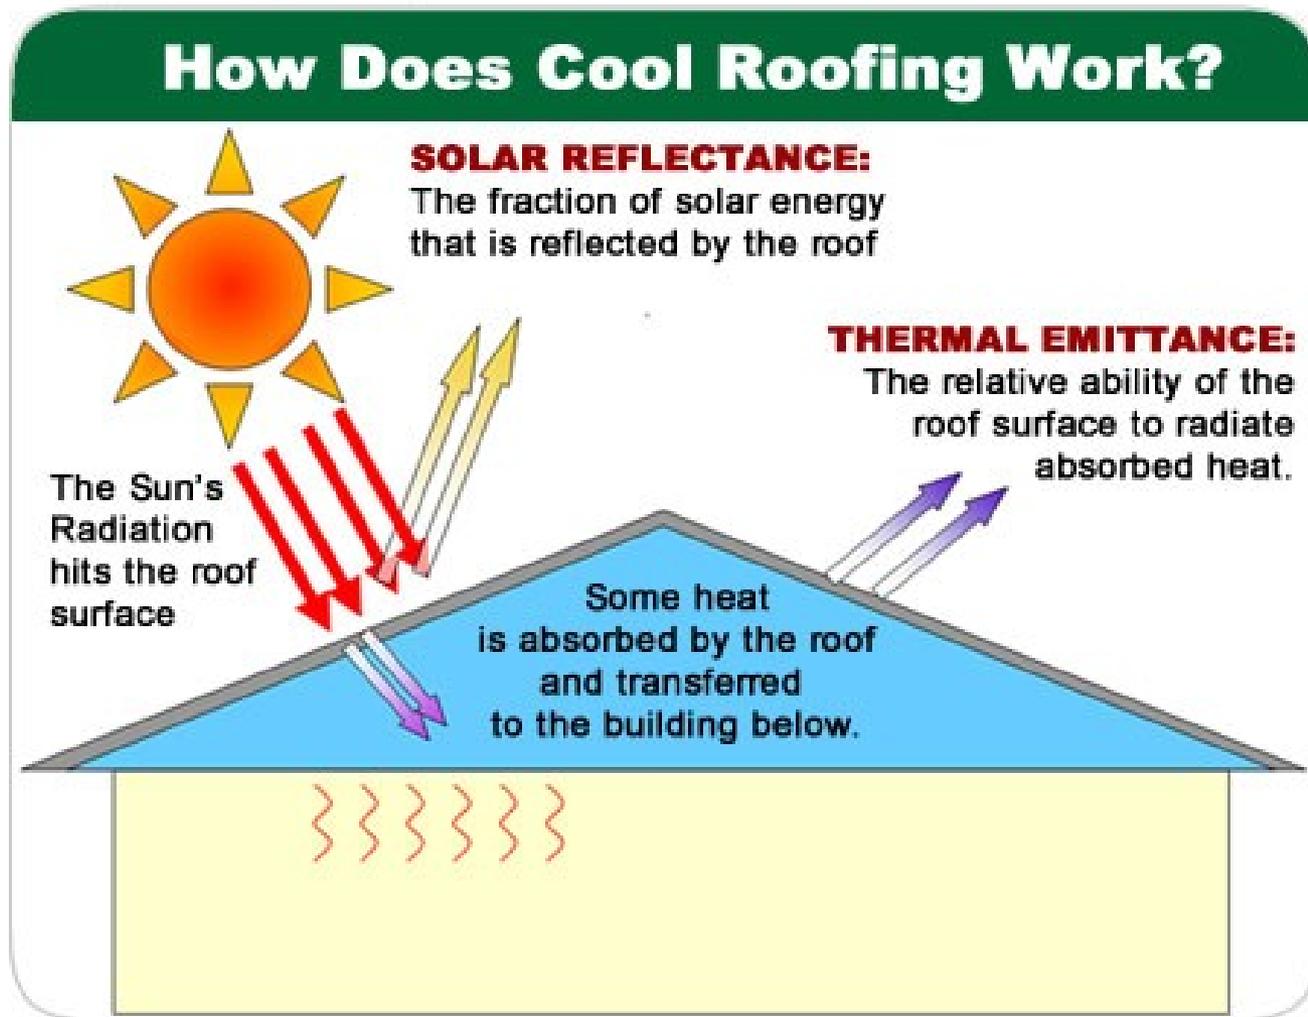

The Cool Top Coat is the final touch to your roof.

It provides enhanced solar reflectance, to keep your home cooler under the scorching sun. Providing you with a more comfortable environment.

All the coatings are water-based and contain the lowest amount of

# How does it save energy?

# Benefits & Savings

- Cool top coat reflects sun and reduces heat build up on your roofs. **Making it more comfortable inside your home.**
- A reduction of 13% surface temperature on your roof will **save up to 50% on your cooling costs.**
- **Improved roof life** due to less changes in temperature on the roof surface.
- A cooler non-toxic roof reduces concerns related to respiratory illnesses.

# Roof Protection

- Our rubber coating is ultra durable, thick and long-lasting.
- It provides a durable waterproofing layer and seals cracks and joints.
- Environmentally friendly with safer ingredients = better air quality for home owner and surroundings = less respiratory concerns.

# Estimated Costs

- Call us for a no obligation, FREE roof inspection
- FREE session on energy and environmental savings for your roof upon completion of job
- Quote will be good for 90 days
- For a fairly new roof, in good condition, we estimate in the range from \$1 per square foot to \$2 per square foot for a roof that has moderate to severe wear.
